

# Are you a parent in early recovery?

Our Parenting in Recovery program teaches effective and practical parenting tools to help you and your family recover together. You'll learn how to improve your family's communication, how to help your children understand addiction in an age-appropriate way, and how to boost protective factors in both your own and your children's lives.

**2017 dates: April 22-23 and September 23-24**

\$200 includes meals and intensive programming including group and individual counselling with our team of addiction experts, and a continuing support group.
