*The road to recovery starts here.*

## The Healthcare Professional's Complete Care Resource for Addiction Treatment

**Substance use disorders are one of the most prevalent illnesses in Canada, with a prevalence rate higher than heart disease and only slightly lower than type 2 diabetes.\***

The good news is that real and sustainable recovery from substance use disorders is possible. As a healthcare professional, you're in the unique position of being able to help your patients and their families reclaim their lives from addiction. Renascent partners with healthcare professionals to facilitate treatment and ongoing recovery for patients and families.

We are a national leader in the treatment of alcohol, drug, and food addictions, and are accredited by the Canadian Centre for Accreditation. Our gender-specific programs are abstinence- and evidence-based, and use up to date clinical and medical best practices and quality standards of care. Our treatment model incorporates pharmaceutical interventions when medically appropriate, including opioid agonist therapy.

### Your Partner in Treatment

#### **Ease of Referral**

Renascent welcomes your referrals, or your patient may self-refer. A physical examination of your patient or lab work is not required as part of the referral process.

**Rapid Access to Treatment**

Immediate admission is available to Renascent's fee for service Complete Care Program for alcohol and drug addiction, which includes our 28- to 42-day comprehensive inpatient treatment program, Continuing Care, Family Care, and Alumni Programs.

**Detox Facilitation**

For your patient's safety, we require 72 hours to eight days of abstinence, depending on the substance. Renascent will coordinate withdrawal management services for your patient prior to admission as necessary.

**Admission and Communication**

We will facilitate intake, assessment, and medical screening. With your patient's consent, you will be part of the Primary Care Team, and receive regular progress updates and a confidential discharge summary upon program completion.

**Interdisciplinary Clinical Team**

Our multidisciplinary team of clinical professionals includes registered psychotherapists, a clinical psychologist, an M.D. certified with the Board of Addiction Medicine, a registered dietitian, and certified addiction counsellors with lived experience of alcohol, drug, and food addiction and long-term recovery.

**Accessible Care**

Through the Renascent Foundation and its generous donors, we offer affordably priced treatment programs and never turn anyone away due to financial circumstances.

**Clinical Consultation**

On a non-crisis basis, Renascent is available to consult with healthcare professionals who have questions about accessing care in the system and resolving complex medical and concurrent mental health issues.

---

**Renascent's clinical staff draw on their own lived experience of addiction and long-term recovery to help clients see the potential for their own recovery.**
